FEATURED PROJECTS

AI Customer Service Agents — WhatsApp + OpenAI (BNI Nebbiolo)

n8n · OpenAI API · PostgreSQL · Supabase · Evolution API

Built two iterations of an intelligent customer service agent. V1 handled FAQs with member data stored in Supabase. V2 integrated Google Docs tools and refined prompt engineering to reduce hallucinations and improve response accuracy.

SDR Agent for E-commerce

n8n · OpenAI API · WhatsApp

Automated sales development pipeline — lead qualification, follow-up, and conversion nudges via WhatsApp with no human intervention in the initial funnel.

Virtual Receptionist — Hair Transplant Clinic

n8n · OpenAI API · WhatsApp

24/7 AI receptionist handling appointment scheduling, FAQ responses, and lead qualification for a medical clinic.

Personal Shopper Web App

React · FastAPI · PostgreSQL · Python

Full-stack application with React frontend and FastAPI/Python backend. Available on GitHub: github.com/Matdev96

Client Web Portfolio — 9 projects delivered

WordPress · HTML · CSS · SEO · Elementor

Institutional websites and landing pages across healthcare, B2B, consulting, and retail. See: matdev96.github.io/Matdev96
